

## Blackberry: SuperCam installation Guide

### Requirement:

- DVR with firmware version: 3.1.3 or later.
- Blackberry OS with 4.6 or above.

### Installation:

1. On Blackberry mobile phone, start the Browser application (**figure 1**).

**Note:** Blackberry mobile phone must have internet access.

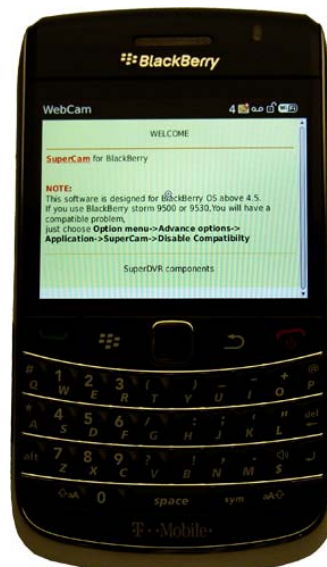

(fig. 1)

2. From the browser, input or go the DVR remote ip address (i.e. <http://71.156.16.144> **figure 2**).

Once the browser access through the ip address, you will see a page like figure 3.

(fig. 2)

(fig. 3)

3. Select or click on the **SuperCam** to download the application in figure 3. Hit “**Download**” to install the SuperCam application (**figure 4a.**).

(fig. 4a.)
